[ASTRID And Security Collaboration](#)

Syncplicity: One Solution to Five Challenges

Secure Enterprise Alternative to Dropbox

Give users a secure alternative to consumer tools that keep them productive on all their devices. With no extra steps.

Distribute Content to Mobile Devices

Easily and securely distribute content to large mobile workforces and external vendors, on all their devices.

Real-time Document Protection

Protect document changes in real-time no matter where they are edited. Stay productive when a device fails without requiring IT intervention.

Securely Send Large Files

Avoid email hassles by sending large files from any device. Restrict access, set link expirations, and track downloads with no effort.

Bring it All Together

Securely view and edit content in home directories, file shares, and SharePoint through the Syncplicity mobile app, without VPN.
